

Preparation for the *Adobe Illustrator* Tutorial Session

- Where: CMC 110 (go there for class that day)
- When: Thursday, Nov. 10, **1-1:45 pm (note early start!)**
- Who's teaching? Doug Foxgrover, Information Technology Services (ITS), Carleton College, x 4037
dfoxgrov@carleton.edu

What will happen at this session?

Doug will have you working directly with *Adobe Acrobat Illustrator* in this hands-on computer lab session. He'll teach you how to do most everything you will need to know to make your poster. You will start making your poster during this session, with your partner(s). You can find *Illustrator* on most of the public lab computers.

What to Bring and How to Bring It?

Work with your partner(s) to gather and create the items below, which you will use in starting your poster in this session with Doug.

- 1. Tentative Poster Title**
- 2. Author List (easy!)**
- 3. Draft Introduction (a paragraph that you write)**
- 4. Other brief text you have written yourselves, anything you want**
- 5. Two Images (with citations, web sites are OK)**
- 6. A draft "Works Cited" List**

You are welcome to bring any other content you have as well (writing, images, web sites).

Deposit the items above electronically in a Word document(s) and place it somewhere in our Course Folder which you can access during this session. Images can be stored separately, if you like.
